

iSAN[®]

Automated Water Sanitation Systems

- > EPA registered water sanitation system.
- > Precision dosing, +/- 0.5 PPM accuracy.
- > Leaves no detectable residue.
- > Proprietary anion resin capture system.
- > Patented I₂ measurement system.
- > 24x7 datalogging with remote monitoring.

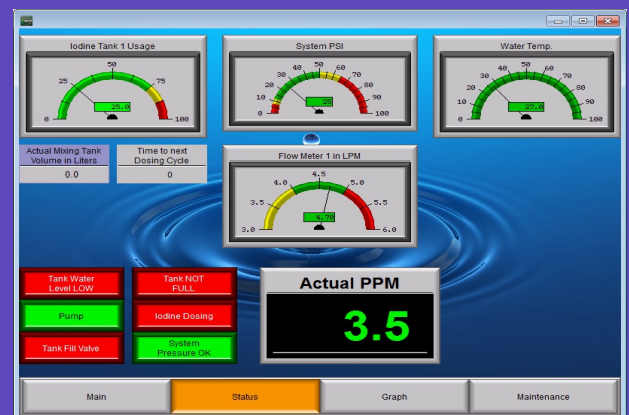

Advanced Biosecurity.

Developed for NASA, optimized for hydroponics.

Controls pathogens safely and effectively.

Captures all disinfection byproducts.

Intuitive touch screen user interface.
